- > Service

Grundfos GO the concept

- > Grundfos GO is based on standard Smartphone technology, we support iPhone, iPod, iPad and Android based telephones. Some of the features in Grundfos GO requires additional hardware to establish a communication link to the pump
- > Supports infrared communication for backwards compatibility, and radio communication for faster connection to new products.

MI 202 – interface for iPhone, iPod, iPad

- > Connect Mobile Interface
- > Install Grundfos GO app from app store
- > Powered from i-device
- > Ready to GO!

Delivered with:

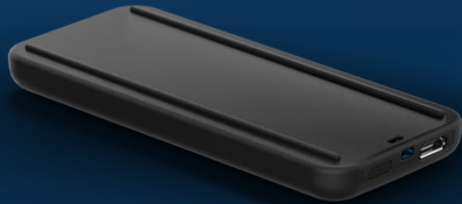

- > Protective sleeve for MI 202
- > iPhone is not provided by Grundfos

MI 301 – Universal interface

- › Pair MI 301 with Smartphone (Blue tooth)
- › Install Grundfos GO app from app store or android market
- › Ready to GO!

Delivered with:

- › Power supply for charging
- › Battery can operate for 8 hours continual use
- › Automatically enters sleep mode when not used
- › Smartphone is not provided by Grundfos

Infrared communication

Grundfos GO is backwards compatible with Grundfos E-pumps and will communicate with the following Grundfos products:

Pumps:

- > MAGNA
- > CRE, CRIE, CRNE, CME
- > MTRE, SPKE, CRKE
- > TPE, TPED

Control boxes/systems:

- > Multi-E
- > CU 300
- > CU 301
- > IO351
- > MP204

Radio communication

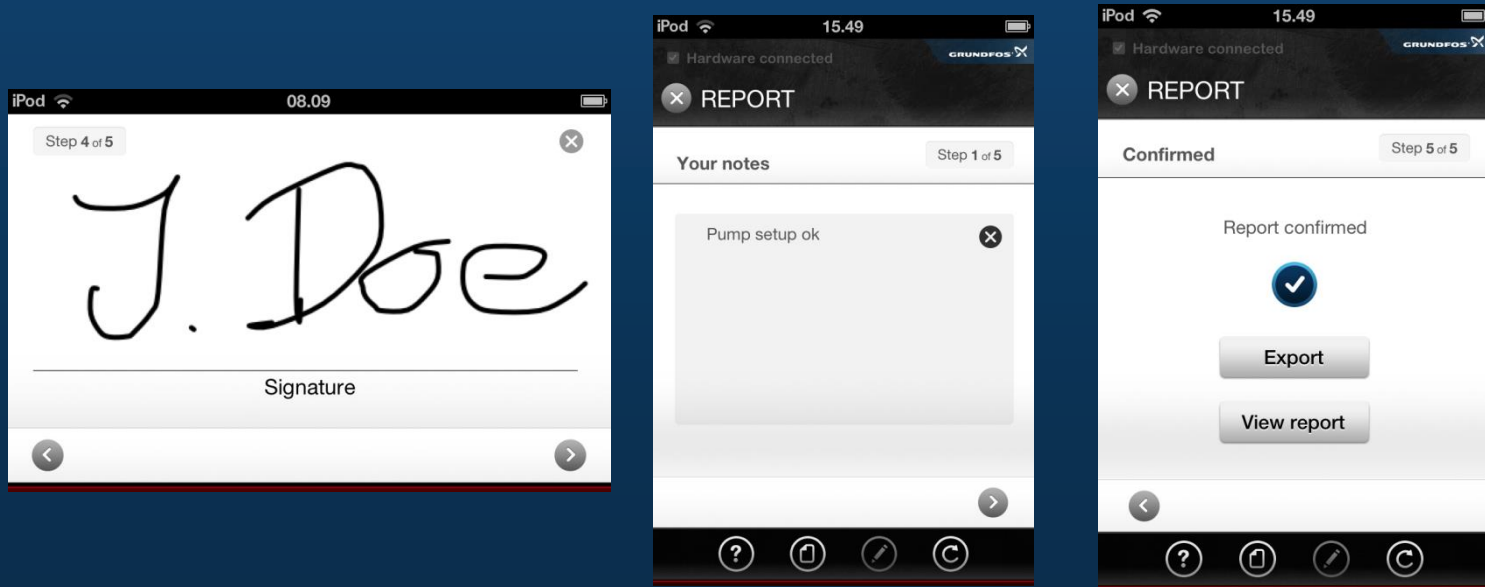

- › Line of sight not necessary
- › Distance 30-150 ft
- › Encrypted communication to avoid tampering
- › Button on pump must be pressed to exchange keys
- › Two ways to connect with radio
 - › Direct connect
 - › List connect

Installation report

Grundfos GO has been designed to save you time and effort. The built-in PDF generator stores your pump reports and important notes safely in an easy-to-share format, that saves you the trouble of dealing with pen, paper and printouts.

Add notes and pictures from the installation, when you are done have the facility manager sign directly on the screen.

Read/Write profiles

With Grundfos GO you can easily install multiple pump, read the settings from one pump, and write them into the next pump.

Demonstration

Service for Mobile Interfaces

- › The Grundfos parts are covered with normal Grundfos service strategy, 2 year warranty.
- › If they malfunction, the complete product is scrapped.
- › The iPod touch is not covered by Grundfos, Apple has the 1 year service obligation, the customer can join the Apple Care Protection Plan can be purchased from Apple if the device is registered.
- › Tested for connectivity with Apple devices

Thank you for your time
